

PRODUCT DATA SHEET

9170 CAVITY WAX

PRODUCT DESCRIPTION:

9170 Cavity Wax serves as a protective layer designed for corrosion protection by utilizing special waxes to preserve and seal various car body cavities. Its unique formulation ensures effective displacement of moisture even in corners and seams, without any dripping or running. This anti-corrosive wax oil treatment is specifically crafted to safeguard closed cavities in the car body, such as door frames, hood, and fenders. It maintains an oily consistency, providing exceptional resistance to both humidity and road salts
